PHaRT 1.0

- There's 2 ways to manage the files on the μ SD card:
 - Drag & drop the files onto the SD card using your computer...

PHaRT 1.0

- Or connect your computer to the PHaRT via USB and run my python script to communicate and transfer files

```
LXTerminal
File Edit Tabs Help
$ ./radprog_io.py

1) List Files on SD card
2) Copy a file from SD to harddrive
3) Copy a file from harddrive to SD
4) Delete a file on SD
Type "exit" to quit
Select an action >> 
```

PHaRT 1.0

**Simple, inexpensive
hardware**

PHaRT 1.0

- Code was developed in Arduino IDE
- Written in C
- Chirp Python source code was used to develop the radio programming algorithms

PHaRT 1.0

THANK YOU FOR WATCHING!
